1 AMENDMENT TO SENATE BILL 739

2 AMENDMENT NO. _____. Amend Senate Bill 739 by replacing
3 everything after the enacting clause with the following:

4 "Section 1. Findings. The Illinois General Assembly finds
5 that:

6 (a) Local health departments and school-based health
7 centers have been providing essential prevention, health
8 promotion, primary care, oral health, and behavioral health
9 services to low-income, Medicaid eligible families and
10 individuals for many years in Illinois.

11 (b) School-based and school-linked health centers provide
12 essential behavioral health, health promotion, oral health,
13 and primary care services to elementary, middle, and high
14 school students in many parts of Illinois, providing unique
15 access to services that increase students' ability to be in
16 class healthy and learning.

17 (c) Family planning agencies provide access to

1 reproductive health and women's health care services for many
2 low-income women and men, allowing them to choose the number
3 and spacing of their children.

4 (d) Including these established safety-net providers will
5 increase the health care system's capacity to serve everyone
6 eligible for medical assistance.

7 (e) Since these agencies have been providing health
8 services to eligible recipients of medical assistance for many
9 years and have unique access to vulnerable populations,
10 excluding local health departments, school-based health
11 centers, and family planning providers from participation in
12 managed care and care coordination programs for eligible
13 recipients of medical assistance will be detrimental to the
14 public's health and hamper the State's efforts to reduce infant
15 mortality, promote healthy child development, prevent and
16 reduce overweight and obesity, discourage teen pregnancy, and
17 prevent and control chronic diseases.

18 Section 5. The Illinois Public Aid Code is amended by
19 changing Section 5-30 as follows:

20 (305 ILCS 5/5-30)

21 Sec. 5-30. Care coordination.

22 (a) At least 50% of recipients eligible for comprehensive
23 medical benefits in all medical assistance programs or other
24 health benefit programs administered by the Department,

1 including the Children's Health Insurance Program Act and the
2 Covering ALL KIDS Health Insurance Act, shall be enrolled in a
3 care coordination program by no later than January 1, 2015. For
4 purposes of this Section, "coordinated care" or "care
5 coordination" means delivery systems where recipients will
6 receive their care from providers who participate under
7 contract in integrated delivery systems that are responsible
8 for providing or arranging the majority of care, including
9 primary care physician services, referrals from primary care
10 physicians, diagnostic and treatment services, behavioral
11 health services, in-patient and outpatient hospital services,
12 dental services, and rehabilitation and long-term care
13 services. The Department shall designate or contract for such
14 integrated delivery systems (i) to ensure enrollees have a
15 choice of systems and of primary care providers within such
16 systems; (ii) to ensure that enrollees receive quality care in
17 a culturally and linguistically appropriate manner; and (iii)
18 to ensure that coordinated care programs meet the diverse needs
19 of enrollees with developmental, mental health, physical, and
20 age-related disabilities.

21 (b) Payment for such coordinated care shall be based on
22 arrangements where the State pays for performance related to
23 health care outcomes, the use of evidence-based practices, the
24 use of primary care delivered through comprehensive medical
25 homes, the use of electronic medical records, and the
26 appropriate exchange of health information electronically made

1 either on a capitated basis in which a fixed monthly premium
2 per recipient is paid and full financial risk is assumed for
3 the delivery of services, or through other risk-based payment
4 arrangements.

5 (c) To qualify for compliance with this Section, the 50%
6 goal shall be achieved by enrolling medical assistance
7 enrollees from each medical assistance enrollment category,
8 including parents, children, seniors, and people with
9 disabilities to the extent that current State Medicaid payment
10 laws would not limit federal matching funds for recipients in
11 care coordination programs. In addition, services must be more
12 comprehensively defined and more risk shall be assumed than in
13 the Department's primary care case management program as of the
14 effective date of this amendatory Act of the 96th General
15 Assembly.

16 (d) The Department shall report to the General Assembly in
17 a separate part of its annual medical assistance program
18 report, beginning April, 2012 until April, 2016, on the
19 progress and implementation of the care coordination program
20 initiatives established by the provisions of this amendatory
21 Act of the 96th General Assembly. The Department shall include
22 in its April 2011 report a full analysis of federal laws or
23 regulations regarding upper payment limitations to providers
24 and the necessary revisions or adjustments in rate
25 methodologies and payments to providers under this Code that
26 would be necessary to implement coordinated care with full

1 financial risk by a party other than the Department.

2 (e) Integrated Care Program for individuals with chronic
3 mental health conditions.

4 (1) The Integrated Care Program shall encompass
5 services administered to recipients of medical assistance
6 under this Article to prevent exacerbations and
7 complications using cost-effective, evidence-based
8 practice guidelines and mental health management
9 strategies.

10 (2) The Department may utilize and expand upon existing
11 contractual arrangements with integrated care plans under
12 the Integrated Care Program for providing the coordinated
13 care provisions of this Section.

14 (3) Payment for such coordinated care shall be based on
15 arrangements where the State pays for performance related
16 to mental health outcomes on a capitated basis in which a
17 fixed monthly premium per recipient is paid and full
18 financial risk is assumed for the delivery of services, or
19 through other risk-based payment arrangements such as
20 provider-based care coordination.

21 (4) The Department shall examine whether chronic
22 mental health management programs and services for
23 recipients with specific chronic mental health conditions
24 do any or all of the following:

25 (A) Improve the patient's overall mental health in
26 a more expeditious and cost-effective manner.

1 (B) Lower costs in other aspects of the medical
2 assistance program, such as hospital admissions,
3 emergency room visits, or more frequent and
4 inappropriate psychotropic drug use.

5 (5) The Department shall work with the facilities and
6 any integrated care plan participating in the program to
7 identify and correct barriers to the successful
8 implementation of this subsection (e) prior to and during
9 the implementation to best facilitate the goals and
10 objectives of this subsection (e).

11 (f) A hospital that is located in a county of the State in
12 which the Department mandates some or all of the beneficiaries
13 of the Medical Assistance Program residing in the county to
14 enroll in a Care Coordination Program, as set forth in Section
15 5-30 of this Code, shall not be eligible for any non-claims
16 based payments not mandated by Article V-A of this Code for
17 which it would otherwise be qualified to receive, unless the
18 hospital is a Coordinated Care Participating Hospital no later
19 than 60 days after the effective date of this amendatory Act of
20 the 97th General Assembly or 60 days after the first mandatory
21 enrollment of a beneficiary in a Coordinated Care program. For
22 purposes of this subsection, "Coordinated Care Participating
23 Hospital" means a hospital that meets one of the following
24 criteria:

25 (1) The hospital has entered into a contract to provide
26 hospital services to enrollees of the care coordination

1 program.

2 (2) The hospital has not been offered a contract by a
3 care coordination plan that pays at least as much as the
4 Department would pay, on a fee-for-service basis, not
5 including disproportionate share hospital adjustment
6 payments or any other supplemental adjustment or add-on
7 payment to the base fee-for-service rate.

8 (g) No later than August 1, 2013, the Department shall
9 issue a purchase of care solicitation for Accountable Care
10 Entities (ACE) to serve any children and parents or caretaker
11 relatives of children eligible for medical assistance under
12 this Article. An ACE may be a single corporate structure or a
13 network of providers organized through contractual
14 relationships with a single corporate entity. The solicitation
15 shall require that:

16 (1) An ACE operating in Cook County be capable of
17 serving at least 40,000 eligible individuals in that
18 county; an ACE operating in Lake, Kane, DuPage, or Will
19 Counties be capable of serving at least 20,000 eligible
20 individuals in those counties and an ACE operating in other
21 regions of the State be capable of serving at least 10,000
22 eligible individuals in the region in which it operates.
23 During initial periods of mandatory enrollment, the
24 Department shall require its enrollment services
25 contractor to use a default assignment algorithm that
26 ensures if possible an ACE reaches the minimum enrollment

1 levels set forth in this paragraph.

2 (2) An ACE must include at a minimum the following
3 types of providers: primary care, specialty care,
4 hospitals, and behavioral healthcare.

5 (3) An ACE shall have a governance structure that
6 includes the major components of the health care delivery
7 system, including one representative from each of the
8 groups listed in paragraph (2).

9 (4) An ACE must be an integrated delivery system,
10 including a network able to provide the full range of
11 services needed by Medicaid beneficiaries and system
12 capacity to securely pass clinical information across
13 participating entities and to aggregate and analyze that
14 data in order to coordinate care.

15 (5) An ACE must be capable of providing both care
16 coordination and complex case management, as necessary, to
17 beneficiaries. To be responsive to the solicitation, a
18 potential ACE must outline its care coordination and
19 complex case management model and plan to reduce the cost
20 of care.

21 (6) In the first 18 months of operation, unless the ACE
22 selects a shorter period, an ACE shall be paid care
23 coordination fees on a per member per month basis that are
24 projected to be cost neutral to the State during the term
25 of their payment and, subject to federal approval, be
26 eligible to share in additional savings generated by their

1 care coordination.

2 (7) In months 19 through 36 of operation, unless the
3 ACE selects a shorter period, an ACE shall be paid on a
4 pre-paid capitation basis for all medical assistance
5 covered services, under contract terms similar to Managed
6 Care Organizations (MCO), with the Department sharing the
7 risk through either stop-loss insurance for extremely high
8 cost individuals or corridors of shared risk based on the
9 overall cost of the total enrollment in the ACE. The ACE
10 shall be responsible for claims processing, encounter data
11 submission, utilization control, and quality assurance.

12 (8) In the fourth and subsequent years of operation, an
13 ACE shall convert to a Managed Care Community Network
14 (MCCN), as defined in this Article, or Health Maintenance
15 Organization pursuant to the Illinois Insurance Code,
16 accepting full-risk capitation payments.

17 The Department shall allow potential ACE entities 5 months
18 from the date of the posting of the solicitation to submit
19 proposals. After the solicitation is released, in addition to
20 the MCO rate development data available on the Department's
21 website, subject to federal and State confidentiality and
22 privacy laws and regulations, the Department shall provide 2
23 years of de-identified summary service data on the targeted
24 population, split between children and adults, showing the
25 historical type and volume of services received and the cost of
26 those services to those potential bidders that sign a data use

1 agreement. The Department may add up to 2 non-state government
2 employees with expertise in creating integrated delivery
3 systems to its review team for the purchase of care
4 solicitation described in this subsection. Any such
5 individuals must sign a no-conflict disclosure and
6 confidentiality agreement and agree to act in accordance with
7 all applicable State laws.

8 During the first 2 years of an ACE's operation, the
9 Department shall provide claims data to the ACE on its
10 enrollees on a periodic basis no less frequently than monthly.

11 Nothing in this subsection shall be construed to limit the
12 Department's mandate to enroll 50% of its beneficiaries into
13 care coordination systems by January 1, 2015, using all
14 available care coordination delivery systems, including Care
15 Coordination Entities (CCE), MCCNs, or MCOs, nor be construed
16 to affect the current CCEs, MCCNs, and MCOs selected to serve
17 seniors and persons with disabilities prior to that date.

18 (h) Department contracts with MCOs and other entities
19 reimbursed by risk based capitation shall have a minimum
20 medical loss ratio of 85%, shall require the MCO or other
21 entity to pay claims within 30 days of receiving a bill that
22 contains all the essential information needed to adjudicate the
23 bill, and shall require the entity to pay a penalty that is at
24 least equal to the penalty imposed under the Illinois Insurance
25 Code for any claims not paid within this time period. The
26 requirements of this subsection shall apply to contracts with

1 MCOs entered into or renewed or extended after June 1, 2013.

2 (i) The Department shall require that all MCOs serving
3 recipients under this Article offer network contracts to local
4 health departments in their service area. MCOs may require
5 local health departments to follow the MCO's protocols for
6 communication regarding services rendered in order to further
7 care coordination.

8 (j) The Department shall require that all MCOs serving
9 children under this Article offer network contracts to school
10 health centers recognized by the Department of Public Health
11 that are in their service area. School health center services
12 shall not require prior approval or referral. MCOs may require
13 local health departments to follow the MCO's protocols for
14 communication regarding services rendered in order to further
15 care coordination.
